**2018-2019  
Point No Point Treaty Council  
In-Common Commercial Sea Urchin Regulation  
#S18-133**

September 14, 2018

The following regulation is promulgated by the Point No Point Treaty Council and shall govern the conduct of off-reservation commercial and subsistence fisheries for red and green sea urchins by the Port Gamble S'Klallam and the Jamestown S'Klallam Tribes (PNPTC Member Tribes). This regulation is intended to comply with provisions of the 2018-2019 Sea Urchin Harvest Management Plan, developed by the U.S. v. Washington Sub-proceeding 89-3 Treaty Tribes and the State of Washington. In the event the Management Plan is not completed before the projected start of tribal fisheries in each urchin district, emergency regulations will be filed under Paragraph 4.6 of *United States v. Washington*, 898 F. sup. 1453 (W.D. Wash. 1995), as amended by the Stipulation and Order Amending Shellfish Implementation Plan, dated April 8, 2002, (hereafter "Implementation Order"). These emergency regulations will remain in place either until they expire or until they are superseded by new regulations filed in accordance with provisions of the final annual management plan. The term of this regulation is from September 1, 2018 through August 31, 2019. Ceremonial fisheries shall be conducted under the provisions of the individual Tribal Fisheries Ordinances and regulations. All areas not specifically opened by this regulation shall remain closed to the commercial and subsistence harvest of sea urchins. Only gear and methods specifically authorized by this regulation may be legally used.

## 1. SPECIES

Red sea urchins - *Mesocentrotus franciscanus*

Green sea urchins - *Strongylocentrotus droebachiensis*

## 2. FISHING AREAS

For the Jamestown S'Klallam and Port Gamble S'Klallam Tribes: Marine Shellfish Management and Catch Reporting Areas 20B, 22A, 23A, 23B, 23C, 23D, 25A, 25B, 25C, 25D, 25E, 26A (S'Klallam U. & A. areas in that portion of 26A south and west of the southern tip of Possession Point on Whidbey Island), 27A, 27B (north of an east-west line from Ayock Pt.) and 29.

### 3. OPEN TIMES AND AREAS

The sea urchin management areas are designated as follows:

**District 1:**

San Juan Islands, Marine Fish and Shellfish (MFSF) Catch Reporting Areas 20B and 22A.

**District 2:**

Admiralty Inlet, MFSF Catch Reporting Areas 23B, 25A and 25B.

**District 3:**

Port Angeles, MFSF Catch Reporting Areas 23A, those waters of Area 23C east of a line projected true north from Low Point, and Area 23D.

**District 4:**

Seki, those waters of MFSF Catch Reporting Area 23C west of a line projected true north from Low Point.

**District 5:**

Neah Bay, those waters of MFSF Catch reporting Area 29.

For green sea urchins only, Districts 3 and 4 will be managed with a single quota. Specific openings for commercial and subsistence sea urchin fisheries will be announced in separate regional emergency regulations. Tribal harvesters are responsible for knowing the current applicable regulations. Information on specific openings and closures shall be available at the Tribal Fisheries Offices and the Point No Point Treaty Council Office.

### 4. CLOSED AREAS

The following research/management areas will remain closed to fishing for the duration of the 2018-2019 sea urchin season:

- A) Those waters of San Juan Channel and Upright Channel within the following lines: north and west of a line from the northernmost point of Turn Island on San Juan Island to Flat Point on Lopez Island and thence projected from Flat Point true west to Shaw Island, north of a line projected from the northernmost point of Turn Island true west to San Juan Island, west of a line from Neck Point on Shaw Island to Steep Point on Orcas Island, and south of a line from Steep Point on Orcas Island to Limestone Point on San Juan Island.

- B) Those waters of Haro Strait north of a line projected east-west one-half mile south of Eagle Point on San Juan Island and south of a line projected east-west one-quarter mile north of Lime Kiln Light on San Juan Island.
- C) Argyle Lagoon: Those University of Washington-owned tidelands and all bedlands enclosed by the inner spit of Argyle Lagoon on San Juan Island.
- D) Those waters within one-quarter mile of Tatoosh Island.
- E) Those waters of the Strait of Juan de Fuca in the vicinity of Low Point that are west of 123 degrees 48.3 minutes west longitude and east of 123 degrees 52.7 minutes west longitude.
- F) District 5, Neah Bay, will remain closed to the harvest of red and green urchins.

**5. GEAR USE LIMITATIONS**

Harvest is restricted to hand held gear that does not penetrate the shell.

**6. HARVEST LIMITATIONS**

Harvest limits for each urchin species within each management region will conform to the total Treaty share as indicated in Section 8 of the 2018-2019 Sea Urchin Harvest Management Plan, and are summarized as follows:

A) Red Sea Urchins

- 1. District 1 San Juan Islands: 166,542 pounds
- 2. District 2 Admiralty Inlet: 13,000 pounds
- 3. District 3 Port Angeles: 50,530 pounds
- 4. District 4 Sekiu: 35,000 pounds

B) Green Sea Urchins

- 1. District 1 San Juan Islands: 175,000 pounds
- 2. District 2 Admiralty Inlet: 38,887 pounds
- 3. Districts 3 Port Angeles & 4 Sekiu: 50,000 pounds

Size limits for sea urchins (diameter exclusive of spines) are as follows:

A) Red Sea Urchins:

All areas--Minimum 3.25 inches; Maximum 5.0 inches.

B) Green Sea Urchins

All areas—Minimum size limit of 2.25 inches. No maximum size limit.

Sea urchins shall not be taken from water shallower than fifteen feet below mean lower low water.

**7. OTHER RESTRICTIONS**

Divers may harvest sea urchins using surface supplied or self-contained breathing apparatus. All harvesting shall be conducted so as to comply with individual tribal management ordinances/plans, rules, and safety standards governing dive fisheries, or as otherwise provided by the individual Tribes. All divers must have open water certification by NAUI, PADI or a comparable program.

**8. COMMERCIAL URCHIN DIVER REGISTRATION**

All tribal sea urchin harvesters participating in the 2018-2019 commercial sea urchin fishery must register at their respective tribal fisheries office prior to participating in the fishery. At the time of registering, the name of the harvester and diving vessel shall be reported.

**9. COMMERCIAL CATCH REPORTING**

All catches, commercial and take home, must be recorded as specified in Section 10. All commercial and take home catches shall also be reported on Treaty Indian Fish Receiving tickets as specified in Tribal Fisheries Ordinances.

**10. HARVEST LOGS**

All commercial tribal urchin harvesters must maintain harvest logs that describe fishing activities and catches. A log record must be made for each day of harvest for each fishing vessel. Logs shall include vessel name, harvester's name(s), harvest date, location fished (nearest landmark, bay or LORAN/GPS reading), total pounds landed by species (red or green urchin), average diving depth of harvest and diving hours. Log sheet information must be turned in to the respective tribal fisheries office each Wednesday during the fishing season. In lieu of dive harvest logs, harvesters may report this information directly to their respective tribal fisheries office. Harvest logs are available at tribal fisheries offices and at the Point No Point Treaty Council central office.

**11. EMERGENCY REGULATIONS**

The above regulations may be amended at any time by emergency regulations. Prior to harvest, each fisher shall check with their tribal fisheries office for emergency regulation changes.

**12. AUTHORITY**

The above in-common fishery regulation is promulgated by the Point No Point Treaty Council, under the authority delegated by the member tribes.
